

Don't Miss Your Chance to Be a Part of the Action!!

There are numerous ways you can participate in and contribute to the 2018 CPM Symposium! The final touches are being made in the **program** with a line-up of one exciting session after another!

It's not too late to **register** and join us in person to create a shared vision for the future of midwifery.

There's also the option of **participating virtually** if you can't make the trip to Maryland this time. Participants in our virtual room will have full access to the symposium program and to

all of the facilitated sessions.

All registrants will receive preparation materials and logistical information in the coming days. The sooner you register the earlier you'll receive this vital information.

Centering the needs of childbearing people is at the core of this year's symposium and we are eager to hear what you and the families you serve have to say! Everyone is invited to submit a 1-minute video of your childbearing story in response to one of

the following questions:

- What is most important to you about your experience of giving birth?
- Were you able to access and receive the kind of care you wanted or needed for your pregnancies and births? What barriers did you experience in accessing the kind of prenatal or birth care you needed or wanted?
- What changes are needed to improve access to CPM care for more families having babies in the US?
- What is your hope for childbirth in the future?

Instructions for submitting video vignettes are available [here](#).

May 11-13, 2018
